

S4 LMT BODY CAM

Precision. Protection. Performance.

HD High Resolution Bodycam

Our robust HD bodycam system is ideal for;
Law Enforcement, Security Officers, Wildlife Rangers etc.

High-Definition Evidence Capture

Record continuously or on-demand in 720P, 1080P, or 1296P with a 140° wide-angle lens, ensuring every detail is covered. Snap crisp 32MP JPEG photos when needed.

All-Day Reliability

Powered by a 4400mAh battery, the S4 LMT delivers 12+ hours of recording at 1080P. Recharge fully in just 240 minutes with inductive charging.

Adaptive Vision

Auto IR control adjusts to very dark or bright conditions, ensuring clear footage day or night.

Advanced Tracking & Security

Full GPS tracking superimposed on multiple map sets. Watermarking embeds time, date, unit ID, position, and speed directly into live and recorded video. All video and tracking data are password protected.

Smart Connectivity

Choose WiFi or 4G models for seamless data transfer. Download video via USB or over-the-air. Integrated two-way communication keeps teams connected in real time.

Built for Tough Environments

Lightweight at 145g, compact at 85 × 55 × 30 mm, and IP67 waterproof — ready for rain, dust, and demanding field conditions.

Intuitive Indicators

LED status lights provide instant feedback on power, platform connection, battery life, GPS, and GSM/WiFi.

SOS Emergency Function

Activate instant live streaming, GPS location sharing, and SOS alarm at the push of a button — critical support when seconds matter.

S4 LMT BodyCam

Record any necessary scenes and scenarios for evidence gathering

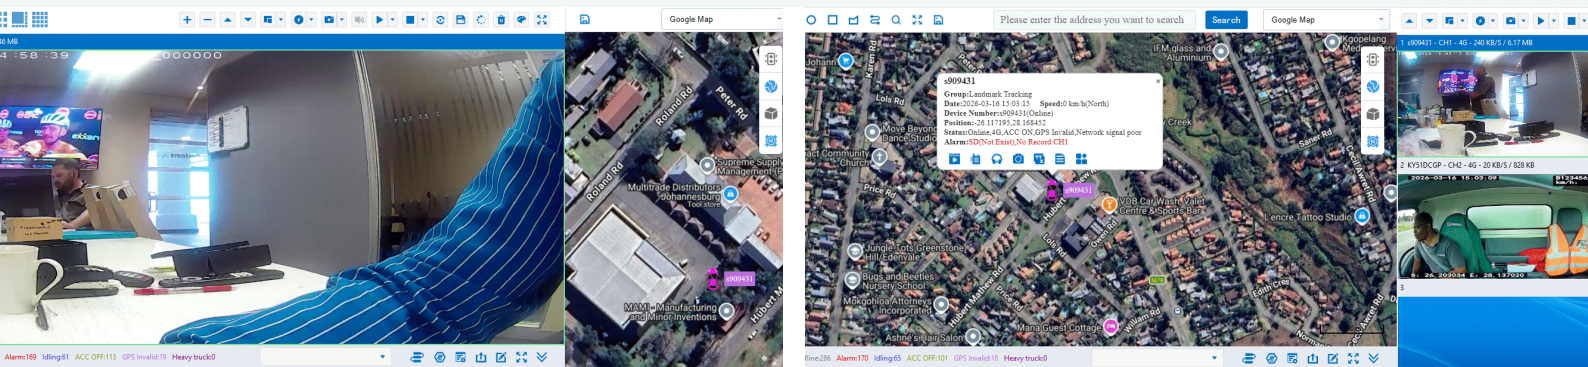

Why Choose S4 LMT

- ✓ **Storage Options:** 64GB or 256GB models
- ✓ **Secure Evidence:** Embedded watermarking + password protection
- ✓ **Durability:** Rugged, waterproof, lightweight design
- ✓ **Flexibility:** Continuous or on-demand recording, photo capture, live streaming
- ✓ **Dependability:** Long battery life, fast recharge, inductive charging

S4 LMT Bodycam Features

- ✓ Available in 64 Gigabit or 256 Gigabit models
- ✓ Available in WiFi or 4G network
- ✓ Inductive charging in charging port
